Gamma

Horizon

Today's hybrid working professionals expect a lot from their audio equipment.

They require outstanding sound performance for natural, conversational communication, extreme durability to withstand the toughest business environments and exceptional comfort for long hours of use whether they are office based, remote working or always on the move.

High quality voice is an imperative part of any company's communication strategy, combining Horizon's voice capabilities with the right headsets for your business and your employees ensures that you will always stay connected.

At Gamma, we're able to offer a full range of audio equipment; Portable headsets and desk phones designed for office-based, hybrid, and mobile workers. Audio-conferencing units perfect for meeting rooms that requires uncompromised audio quality.

Headsets

Headsets represent the pinnacle of comfort, naturally making them perfect for hybrid, remote, or office-based workers who want the freedom to work without being tied to a handset.

We have partnered with both **EPOS Sennheiser** and **Poly** to provide you with as wide a choice of headsets as possible.
